

# SHRAVAN CHANDRA

(+91)98868-24246 · shrvanchnr@gmail.com · linkedin/shrvanchnr · github/shrvnchnra

## OBJECTIVE

---

Research Intern with 1+ years of experience in Machine Learning & Data Science, seeking full-time opportunities in Software Development Engineering/ Machine Learning/ Data Science roles.

## EDUCATION

---

**Bachelor of Technology in Electrical & Computer Science**, PES University — 8.56 2017 - 2021  
Relevant Coursework: Data Structures & Algorithms, Machine Learning, Deep Learning.  
CNR Rao Scholarship Awardee. Minored in Computer Science.

**Pre-Grad**, Narayana PU College — 92% 2015 - 2017  
**Schooling**, Maharshi Public School — 9.0 2005 - 2015

## SKILLS

---

<b>Languages</b>	Python, Java, SQL, C/C++, JavaScript
<b>Libraries &amp; Softwares</b>	TensorFlow, PyTorch, Scikit-Learn, Git, AWS, OpenCV, NLTK

## EXPERIENCE

---

**Research Intern** Oct 2019 - July 2020  
Center for Data Science and Applied Machine Learning *Bangalore, IN*

- Achieved 5% improvement for sentiment analysis using NLTK and XGBoost.
- Extracted & interpreted relevant data from movielens dataset and predicted accurate behavior.
- Developed cartoons emotion recognition model with 85% accuracy using Keras and OpenCV.

## PROJECTS

---

**Customer Satisfaction Analysis** Oct 2019 - Dec 2019

- Identified, analyzed, and extracted significant statistics from the customer satisfaction with different banks post demonetization survey data, using Python with NLTK and TensorFlow.
- Converted extracted data into actionable insights by predicting and modeling future behavior with 90% accuracy.

**Low-Light Object Detection** Feb 2020 - July 2020

- This project ranked in the top 3 of the Intel Student Competition.
- Implemented an end to end object detection model using Zero-DCE and YOLOv3, built using Python with OpenCV and PyTorch.
- Accomplished 25% improvement in mAP score compared to vanilla YOLO.

**Sign Language Translator** Aug 2020 - Present

- Working on a real-time translator, which can identify the hand signs and interpret them to any desired language.
- The model will be integrated with a Raspberry Pi later for modularity and low cost.

## EXTRA-CIRRICULAR ACTIVITIES

---

- Organizer of Epsilon-2018.
- Amateur Guitarist & Singer.
